

TEC.LOG — Exam Snapshot & Teacher Reset Procedure

Version 1.0 — 2026-05-18

This document defines the **official exam snapshot** (canonical state of the Odoo EDU LAB before any exam) and the **teacher reset procedure** to restore it after classroom use.

Exam Snapshot — Canonical State

The following table defines the exact state of the Odoo EDU LAB that must exist **before any exam or graded evaluation session**.

Stock Quantities (Canonical)

Product	Location	Lot	Qty	Tolerance
SKU-001 Boîte carton	WH/Stock/Allée-A	—	130	±0
SKU-002 Palette bois	WH/Stock/Allée-A	—	20	±0
BOX-001 Carton assemblé	WH/Stock/Allée-A	—	75	±0
SKU-003 Film étirable	WH/Stock/Allée-B	LOT-SKU003-A	50	±0
SKU-003 Film étirable	WH/Stock/Allée-B	LOT-SKU003-B	30	±0
SKU-003 Film étirable	WH/Stock/Allée-B	LOT-SKU003-C	20	±0
SKU-004 Ruban adhésif	WH/Stock/Allée-C	LOT-SKU004-2024-A	40	±0
SKU-004 Ruban adhésif	WH/Stock/Allée-C	LOT-SKU004-2024-B	25	±0
SKU-005 Étiquettes	WH/Stock/Allée-C	—	500	±0

Total canonical stock: 970 units across 9 quants in 3 Allées.

Putaway Rules (Canonical — 6 rules)

ID	Product	From	To
1	SKU-001	WH/Input	WH/Stock/Allée-A
3	SKU-003	WH/Input	WH/Stock/Allée-B
4	SKU-004	WH/Input	WH/Stock/Allée-C
5	SKU-002	WH/Input	WH/Stock/Allée-A
6	BOX-001	WH/Input	WH/Stock/Allée-A
7	SKU-005	WH/Input	WH/Stock/Allée-C

Reorder Rules (Canonical — 3 rules)

Product	Min	Max	Location
SKU-004	10	50	WH/Stock
SKU-005	20	100	WH/Stock
SKU-003	30	150	WH/Stock

Teacher Reset Procedure

Step 1 — TEC.WMS Reset (5 minutes)

1. Log in to TEC.WMS as teacher/admin
2. Navigate to **Tableau de bord enseignant** → **Surveillance**
3. For each student with a completed or in-progress run:
 - Click the **“Réinitialiser”** button (red, with confirmation dialog)
 - Confirm reset — this deletes the run and all child records
4. Optionally reset quiz attempts: click **“Réinit. quiz”** for each student

Step 2 — Odoo EDU LAB Stock Reset (10 minutes)

Run the stock adjustment script from the sandbox:

```
python3 /home/ubuntu/odoo_stock_adjust.py
```

This script restores all stock quantities to canonical values.

Manual alternative (if script unavailable):

1. In Odoo: Inventory → Products → SKU-001
2. Click “**Update Quantity**”
3. Set quantity to 130 in WH/Stock/Allée-A
4. Repeat for each product in the canonical table above

Step 3 — Archive Exam Documents (5 minutes)

After each exam, archive student-created documents to keep the lab clean:

1. Inventory → Receipts → filter by date (today)
2. Select all exam-created receipts → Action → Archive
3. Inventory → Delivery Orders → filter by date (today)
4. Select all exam-created deliveries → Action → Archive

Important: Do NOT archive the reference documents (WH/IN/00002–00006, WH/OUT/00001). These are teaching reference documents and must remain visible.

Step 4 — Verify Reset (2 minutes)

Run the audit script to confirm canonical state:

```
python3 /home/ubuntu/odoo_audit.py 2>&1 | grep -A 20 "STOCK QUANTS"
```

Expected output should match the canonical table above.

Pre-Exam Checklist

Use this checklist before every graded evaluation:

- ☐ **TEC.WMS:** All student runs reset (MonitorDashboard shows 0 active runs)
- ☐ **TEC.WMS:** Quiz attempts reset for all students (if required)
- ☐ **Odoo:** SKU-001 @ Allée-A = 130 units
- ☐ **Odoo:** SKU-002 @ Allée-A = 20 units
- ☐ **Odoo:** BOX-001 @ Allée-A = 75 units
- ☐ **Odoo:** SKU-003 @ Allée-B = 100 units (3 lots)
- ☐ **Odoo:** SKU-004 @ Allée-C = 65 units (2 lots)
- ☐ **Odoo:** SKU-005 @ Allée-C = 500 units
- ☐ **Odoo:** 6 putaway rules active
- ☐ **Odoo:** 3 reorder rules active
- ☐ **Odoo:** Exam documents from previous session archived
- ☐ **Odoo:** Reference documents (WH/IN/00002-00006, WH/OUT/00001) still visible
- ☐ **Student accounts:** All students can log in to TEC.WMS
- ☐ **Odoo access:** Students have read access to edu-concorde-logistics-lab.odoo.com

Troubleshooting

“Stock shows wrong quantity after exam”

Run `odoo_stock_adjust.py` to restore canonical quantities. If a student created an inventory adjustment that cannot be undone, use the Odoo backend: Inventory → Reporting → Inventory → select product → adjust quantity manually.

“Putaway rule is missing”

In Odoo: Inventory → Configuration → Putaway Rules → create rule manually using the canonical table above.

“Student cannot see Odoo data”

Verify the student is accessing `https://edu-concorde-logistics-lab.odoo.com` (not `demo.odoo.com` or any other instance). The lab URL is embedded in TEC.WMS slide

links — check the Odoo Lab button in each module.

“TEC.WMS reset button is greyed out”

The reset button is only available for runs in `in_progress` or `completed` state. If the run is in `not_started` state, no reset is needed.

“Quiz reset is not working”

The `quiz.resetAttempts` procedure requires teacher or admin role. Verify the teacher account has `role = 'teacher'` or `role = 'admin'` in the database.
